Elegant design meets innovative technology

- Fusion between light and design

High-quality light

- Warm white light
- High light quality with strong light output
- Adjustable light intensity with dimmer switch

Sustainable light solutions

- Extremely long operating life
- Saves up to 80% energy

Special characteristics

- On/off switch on article
- Rotates freely in any direction

PHILIPS

Highlights

Light and design

This design lamp has light with a minimalist essence that defies traditional boundaries, creating light and lightforms of inspiring purity and beauty.

Warm white light

This light uses the very latest lighting technology by Philips with the new warm white state-of-the-art high power LEDs providing a glow of light with a colour temperature of 2700 Kelvin.

High light quality

An LED lighting module of 7.5 W produces a light output equivalent to a 40-W incandescent bulb (350 Lumen). Save energy with strong light output.

Dimmable

Adjust the light intensity of the Philips LED lights with a dimmer switch (not included). This makes this light ideal for creating an

ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room. Philips tested a number of wall dimmers that have proved to be compliant with our LED lights. A list of compatible dimmers is available in the downloads and support section.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 20,000 hours (which equals 20 years on the basis of an average use of 3 hours/day with at least 13,000 on/off switching cycles). With Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient

(7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

On/off switch on article

With the button discreetly integrated into the article, you can easily switch the light on and off.

Rotates freely

You can rotate the lamp head of the Philips lighting fixture in the desired direction and direct light where needed.

Specifications

Design and finishing

- Material: metal
- Colour: aluminium

Product dimensions and weight

- Height: 11.2 cm
- Length: 20.1 cm
- Width: 11.8 cm
- Net weight: 0.400 kg

Technical specifications

- Mains power: Range 220 V–240 V, 50-60 Hz
- Bulb technology: PowerLED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 7.5 W
- Maximum wattage replacement bulb: 7.5 W
- Light colour: 2700K warm white
- Lamp lifetime up to: 20,000 hrs

- Beam angle: 40°
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: I - earthed

Service

- Warranty: 2 year(s)

Packaging dimensions and weight

- Height: 18.9 cm
- Length: 16.7 cm
- Width: 15.1 cm
- Weight: 1.040 kg

Miscellaneous

- Especially designed for: Living Room and Bedroom
- Style: Modern
- Type: Wall light
