Highlights

Innovative LED technology

Innovative LED technology with extremely long operating life

High-powered LED

Long-lasting, high-powered LED technology

Adjustable height

This Philips light is delivered with long cables to offer you a maximum flexibility during installation. Choose the perfect height matching your needs.

Diffused warm white light

This light uses the latest energy-saver lamp technology by Philips to provide a flood of warm white natural light. Its diffused light will illuminate your room with warm white light, allowing you to combine functionality and respect for the environment. Diffused light is perfect for general illumination.
Dimmable

Adjust the light intensity of the Philips LED lights with a dimmer switch (not included). This makes this light ideal for creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room. Philips tested a number of wall dimmers that have proved to be compliant with our LED lights. A list of compatible dimmers is available in the downloads and support section.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Tunable white

Who said that choosing your LED light color was not possible? This lamp introduces tunable white: you can choose your preferred light color from warm white to cool white at installation of your lamp. There are 4 light color options offered: 2500, 2700, 3100, 3450 Kelvin. Once the light color installed, most lamps can be dimmed normally with a wall dimmer (excluded).

Specifications

Design and finishing
• Material: aluminium
• Color: aluminium

Product dimensions & weight
• Height minimum: 0.0 cm
• Height maximum: 250 cm
• Length: 94 cm
• Width: 9.0 cm
• Net weight: 3.050 kg

Technical specifications
• Mains power: Range 220 V - 240 V, 50-60 Hz
• Number of bulbs: 3
• Wattage bulb included: 7.5 W
• Fixture dimmable
• LED

• IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
• Class of protection: I - earthed

Service
• Warranty: 1 year(s)

Packaging dimensions & weight
• Height: 99.4 cm
• Length: 12.1 cm
• Width: 10.3 cm
• Weight: 3.710 kg

Miscellaneous
• Especially designed for: Living- & Bedroom
• Style: Modern
• Type: Suspension light
