

Philips Ledino  
Spot light

Ledino

690848766

## Giving light a new experience

Power with precision. This highly-directional linear spotlight family is built around a sheer aluminium bar with an architectural feel inspired by professional lighting systems.

### **Elegant design meets innovative technology**

- High Power LED
- High light quality with strong light output
- The perfect beam angle for spot lighting (40°)
- Adjustable light intensity with dimmer switch
- Rotates freely in any direction
- Cool white light effect

### **Sustainable light solutions**

- Extremely long operating life
- Saves up to 80% energy

**PHILIPS**

sense and simplicity

# Highlights

## Dimmable

Most Philips LED luminaires are dimmable, which means that their light level can be adjusted with a dimmer switch. The dimming indication is always mentioned on the product packaging and in the manual that is delivered in the box. Most Philips LED luminaires can be dimmed by means of an external trailing edge wall dimmer (not included in the product box). These dimmers are compatible with electronic (capacitive) transformers and LED drivers. Philips tested a number of wall dimmers that have proved to be compliant. A list of compatible dimmers is available in the downloads and support section.

## Extremely long operating life

A light source you can trust. Philips LED luminaires offer an extremely long-life of at least 20.000 hours (which equals 20 years on basis of an average use of 3 hours / day with an amount of at least of 13.000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or lamp replacement while having the perfect light ambiance in your home.

## High light quality

A module of 7.5W produces the equivalent light output as an 40W incandescent lamp (350 Lumen) with strong light output.

## High Power LED

The LED module is a uniquely developed solution by Philips combining 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

## Rotates freely

Rotates freely in any direction

## Saves up to 80% energy

The LED lighting technology used in Philips luminaires is highly energy-efficient (7.5 W

module produces 350 Lumen). As a result, every luminaire conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

## The perfect beam angle

The perfect beam angle for spot lighting (40°)

## Cool white light effect

Light up your home with cool white light effects thanks to the latest LED innovation. Philips introduces the latest generation of cool white light high power LEDs, reaching a color temperature of 4000 Kelvin. This innovation brings our luminaires to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.

# Specifications

## Power

- Power supply: 220-240V, 50/60 Hz
- Output: SELV
- Energy consumption: 4x 7,5W
- Class of protection: I

## Design and finishing

- Material: aluminium
- Color(s): grey

## Technical specifications

- Light source: 4 LED modules
- Light color: 4000k cool white
- Life span: 20 years
- Style: modern
- Price range: premium
- Room: bed and livingroom

- Type: ceiling light, spot light
- IP code: IP20

## Extra features

- Dimmable
- Warranty: 2 year(s)

## Packaging

- Height: 92 cm
- Length: 18 cm
- Width: 11 cm
- Gross weight: 2,2 kg

## Product dimensions and weight

- Height: 19 cm
- Length: 90,5 cm
- Net weight: 1,8 kg
- Width: 6 cm
