Highlights

Premium materials

Die-casted aluminum for a premium look and feel

Integrated LED light source

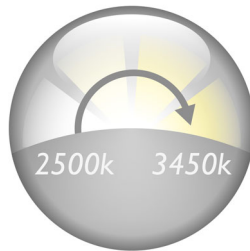

Built-in LED, as part of the system

Dimmable

Adjustable light intensity with dimmer switch. This makes Philips SmartSpot lighting fixtures ideal for highlighting a feature or creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living-room or offering functional light in corridors for example.

Tunable white

Who said that choosing your LED light color was not possible? This lamp introduces tunable white: you can choose your preferred light color from warm white to cool white at installation of your lamp. There are 4 light color options offered: 2500, 2700, 3100, 3450 Kelvin. Once the light color installed, most

lamps can be dimmed normally with a wall dimmer (excluded).

80% energy saving

80% energy saving, compared to incandescent light sources

Extremely long life

A light source you can trust. Philips LED lights offer an extremely long-life of at least 20,000 hours (which equals 20 years on basis of an average use of 3 hours / day with an amount of at least of 13,000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.
