

## LAUNCHING THE NEW ACORN IN AMBER BRASS AND SMOKED STEEL FROM UIMAGE

We are excited to announce the new additions to the Acorn family, the Acorn in amber brass and smoked steel. Inspired by the humble acorn, the pendant light offers a warm, autumnal glow, perfect for living rooms or kitchens, bathrooms and bedrooms.

The Acorn's visible decorative bulb emits a calming light through the amber or smoke coloured glass lampshades. The transparent glass and alluring reflections add a stylish foil to the polished metal top. Whether you prefer an industrial look or something more classic, the Acorn looks delightful in cluster above a breakfast bar or dining table, or solitarily lighting a cosy corner.

Søren Ravn Christensen, Chief Creative Developer at UIMAGE, shares his tips on how to create a cosy atmosphere in the kitchen with the Acorn:

*"The kitchen is the centre point of the home. All kitchens need to feel inviting and inspiring – kitchens are often used not only for practical reasons, but also as a focal point for social interactions, with your family and friends stopping by during the colder winter months. Curating small families of Acorns in your kitchen allows for both practical, task lighting while at the same time creating the ambience you want to relax and take time out with your loved ones."*

We take the story of Scandinavian design further than ever before by combining aesthetics, simplicity and functionality and infusing it with thoughtful craftsmanship and environmental care. Our designs are deeply rooted in the diverse urban landscape and raw nature surrounding our home in the heart of Copenhagen, Denmark. Having begun our journey in November 2008, we are celebrating our 10th anniversary this year by constantly growing and expanding the conventions around contemporary design.

### PRODUCT FACTS
