

## DYNAMIC LIGHT AND SHADOW WITH THE RIBBON LAMPSHADE FROM UIMAGE

With its soft translucent strips interwoven into a delicate organic shape, the Ribbon lampshade is a sculptural object that sends a warm glow of light into the space. Ribbon's careful construction of curves and folds gives the lampshade a dynamic mix of light and shadow on its surface.

The lampshade's shape and the combination of bright and darker shades changes depending on where you see it in the room, offering multiple viewing experiences. Ribbon's light is subtle and cosy on the outside and bright and intense on the inside. This makes Ribbon ideal as both a decorative and functional lampshade. Even when switched off Ribbon adds a vibrant and iconic shape to the interior.

Use Ribbon as a centrepiece in the living room or hang one or two lampshades over the dining table or kitchen island. With its combination of different light shades Ribbon also works well in hotels, restaurants and relaxed reception areas.

Lorenzo Radaelli, Designer: "Some lampshades are just so beautiful that you feel compelled to make them. My aim was to create a lampshade with a dynamic volume in three-dimensional space. I was inspired by the Mobius strip, which is a two-dimensional tape sewn on itself seamlessly. I developed this idea into the outer wings of the lampshade to enrich the

volume of lights and shadows and to create a dynamic and unforgettable knot of light. I think Ribbon is very decorative and also has a slightly retro character making it particularly suitable for interiors with softer furniture and bolder colours."
